# SERVICES INFORMATION

## MOBILE CRISIS RESPONSE

The service is available to all ages. Anyone experiencing a crisis can access the crisis line, whether it is adolescent behavioral issues, depression, anxiety, substance use, suicidal thoughts, and everything in between. Trained phone responders will assess the situation and deploy the Mobile Crisis Response Team if an in-person response is deemed to be necessary or helpful. Once onsite, the on-call counselors are able to perform crisis assessments and will take the necessary time with the client to: determine if suicidal or homicidal ideations are present, determine if de-escalation and stabilization in the field are possible, and complete a thorough safety plan with the client if they are willing to contract for safety in that moment.

712-264-3945 • ccnia.org
